

OFFICIAL CONTEST RULES

Cincy Typing Challenge

These are the official rules that will govern how the Cincy Typing Challenge (the “Contest”) will operate. TREWGrip LLC, an Ohio limited liability company (“Sponsor”), is the sponsor of this Contest. The Sponsor’s address is 6824 Ashfield Drive, Cincinnati, Ohio 45242.

1. The Contest. The Contest is a skill-based typing contest, in which eligible participants (“Participants”) will compete by texting, typing or keyboarding (depending upon the contest), predefined sentences provided by the Sponsor to the Participants. The Participants will use their own cell phones in the texting challenge, a typewriter for the typing challenge and a standard computer keyboard for the keyboarding challenge. Typewriters and keyboards will be provided by the Sponsor in the Qualification Round of the Contest. As detailed below, finalists in the Qualification Round of the typewriter and keyboarding challenges will be provided with the temporary use of a TREWGrip device, which will be made available by the Sponsor. Finalists will have the opportunity to practice using the TREWGrip device and will be invited back to participate in the Final Round of the Contest, as further outlined below. TREWGrip is a revolutionary new “reartype” text input device that uses normal keyboard keys for typing, but on the backside of the device. The standard QWERTY key layout is split and rotated so the hands gripping a TREWGrip device can also do multi-finger text entry. By maintaining the QWERTY key layout, typists can quickly transfer competencies from a conventional keyboard to TREWGrip without having to learn an entirely new skill. The TREWGrip device also provides visual cues on the front-side, which allows users with varying levels of typing expertise to easily locate the keys on the back.

Participants will be judged on speed and accuracy by calculating the net words per minute (“Net WPM”) typed. The Net WPM will be calculated by taking the total number of words (a word is defined as 5 characters) typed, and multiplying it by the Percent Accuracy. Percent Accuracy is calculated using the Levenshtein Distance Algorithm. The goal of the Contest is to identify and reward the fastest typist among all of the Participants, and to exhibit the ease of use of the TREWGrip device with minimal practice by Participants accustomed to using traditional keyboards.

The Contest has not been held before, and so there is no way to estimate the number of participants in the Contest or the odds of winning the Contest or of being awarded any of the prizes specified below. The prizes specified below are not dependent upon the number of entries received, and chance plays no part in the determination of the winner of the Contest or the award of any of the prizes specified below.

"The razor-toothed piranhas of the genera Serrasalmus and Pygocentrus are the most ferocious freshwater fish in the world. In reality they seldom attack a human."

The Participants will be timed by an official and will send the text message to a predefined phone number provided by the Sponsor. The winner will be determined by time and accuracy. Accuracy requires that the Participant text the words and punctuation correctly, with no misspellings or typos, in order to be considered for the prizes. Participant text messages completed and sent to the predefined phone number must be 100 percent accurate or the submission will not count and will not be considered for the ranking by time.
